J.Johnson@solidrsolutions.com | SRS | SDVOSB | CAGE 85NA1

PROFESSIONAL SUMMARY

Client-focused professional with 10+ years of information technology and security services experience, complemented by capture management and government contracting consulting. Experienced in opportunity qualification, bid and proposal support, customer requirements gathering, and stakeholder coordination. Consulting work includes support for sub-agencies and contractors associated with the Department of Homeland Security, FEMA, and the Department of Veterans Affairs, as well as nonprofit organizations and local businesses.

CORE COMPETENCIES

Capture Management | Capture Facilitation | Teaming Coordination | Win Strategy | Bid/No-Bid Follow-Up | Outbound Sales | Stakeholder Relationships | Project Management | Cybersecurity Support | Troubleshooting | Process Improvement | Documentation | Coaching & Mentoring

PROFESSIONAL EXPERIENCE

SRS | 2018 - Present

Consulting Services: Cybersecurity, Capture Management & AI Coaching

- Provide cybersecurity consulting, capture management, and AI coaching services to clients, including nonprofit organizations and local businesses.
- Facilitate capture activities for a teaming cooperative and work with internal company software used as its CRM to support opportunity tracking and coordination.
- Verify bid/no-bid decisions and follow up with clients on commitments and next steps; help establish a win strategy before proposal writing begins.
- Encourage active member participation and conduct outbound sales outreach to engage prospective clients and identify opportunities.
- Supported the cooperative team as a capture facilitator through weekly win-strategy discussions, publications, member engagement, and client follow-through.

SilkRoad Technology | Remote | Client Support Specialist | 2022 - 2023

- Delivered customized technical support in a high-volume call center, using active listening to assess client needs and troubleshoot complex issues.
- Evaluated feature and workflow instruction requests through a ticketing system and developed testing processes for workflow solutions.
- Reviewed workflow testing and findings with clients through Microsoft Teams and phone conferences, providing clear process guidance.

Abacus Solutions Group | Glynco, GA | Tier 2 Technician | 2020 - 2022

- Improved troubleshooting workflows and advocated tools and procedural changes to shorten solution discovery and resolution times.
- Led Apple product deployment and trained staff on macOS image building; received exceptional performance reviews.
- Repaired Windows images for enterprise workloads and resolved hardware and software issues; received commendations for performance and work ethic.
- Maintained thorough ticket documentation and built customer relationships through attentive, timely service.
